

Redefining Brilliance

VRK Alumart Pvt. Ltd.

Fastest growing aluminium extrusion and ingot company

Bureau of Indian Standards
The National Standards Body of India

ABOUT

VRK ALUMART PVT. LTD

Established in the year 2020, **VRK Alumart Pvt. Ltd.** (Formerly known as Shree Jagdamba Metals estd. 2006) is the fastest growing privately owned company that produces superior quality aluminum extrusions and alloy ingots. As an **ISO 9001:2015, BIS 617:1994, and IATF 16949:2016** certified manufacturing company, we have carved a niche for ourselves in the market and deal as per the internationally known specifications

We have two extrusion presses, measuring **5" and 6"**, equipped with a cutting-edge fully automated **PLC control system** and a **three head puller** for producing twist and bend-free profiles. Additionally, our facility incorporates an **auto-conveyor belt** handling system, a variable tonnage stretching machine paired with an auto-finish saw machine, further enhancing efficiency and accuracy. To maintain stringent quality standards, we employ **German-made Spectro Analytical Instrument** for automated and precise quality monitoring.

We are determined to produce premium quality extrusion in different alloys with thickness starting from 0.6 mm and profile size upto 200 mm subject to diverse grades of aluminum alloys such as **6061, 6082, 6063, some local alloys and in temper T5, T4, T6.**

Our extrusion capacity currently stands at **9600 tonnes annually**, with ambitious plans to reach **18000 tonnes** within a year, ensuring our commitment to meeting the evolving needs of our clients and contributing significantly to the industry's growth. Furthermore, we have a robust production capacity of **800-1000 tonnes** for alloy ingots catering specifically to the automobile segment.

OUR SEGMENTS

- ◆ **Architectural Products (Doors, windows, curtain walls, structural glazing, mosquito profiles, blinds)**
- ◆ **Air Handling Units**
- ◆ **Building and Construction**
- ◆ **Solar Energy**
- ◆ **Transmission Distribution**
- ◆ **Electrical and Electronics**
- ◆ **Automobile industry**
- ◆ **Defense Industry**
- ◆ **Automation Industry**
- ◆ **Medical**
- ◆ **Textiles and syntex**
- ◆ **Hardware**
- ◆ **Modular kitchens**
- ◆ **Louvers**
- ◆ **Cycle profiles**
- ◆ **Foam work**
- ◆ **Heat sink**

KNOW OUR FOUNDER

With over 25 years of experience in the scrap trading industry and a successful two-decade journey in the aluminum manufacturing sector, **Mr. Vikas Gupta's** expertise has granted VRK Alumart a distinct advantage for growth and prosperity. Leveraging his extensive knowledge and longstanding involvement in the industry, Mr. Gupta is earnestly dedicated to expanding the business to new heights.

Envisioning VRK Alumart as a prominent brand in the burgeoning aluminum industry, Mr. Gupta, true to his word to his father, initiated a scrap trading business and later established a thriving aluminum extrusion factory in Bhiwadi, Rajasthan. Having forged successful partnerships with numerous medium and large organizations across all verticals, VRK Alumart's journey under **Mr. Vikas Gupta's** leadership is poised to usher in a revolutionary change for a safer and healthier environment.

VISION:

To be recognized as a benchmark for excellence in aluminum extrusions and alloy ingots globally, recognized for our commitment to excellence, technological advancements, and sustainable practices. We aspire to continually expand our product range, enhance operational efficiency, and foster a workplace that encourages creativity and collaboration.

MISSION

To be a leading provider of high-quality aluminum extrusions and alloy ingots with exceptional metallurgical properties, meeting the stringent demands of our customers offering innovative solutions that cater to diverse industries. We aim to exceed customer expectations through precision, reliability, and sustainable practices, and responsible sourcing.

Why Chose Us ?

INFRASTRUCTURE:

Our well-developed infrastructure, exemplary working ethics and professional attitude have made it possible to manufacture top-notch quality products.

INTEGRITY:

At VRK Alumart, acting and taking decisions in a manner that is fair and honest, is non-negotiable. Integrity, for us, means not only financial and intellectual integrity but encompasses every aspect of our business.

GREEN FUEL:

Committed to sustainability, VRK Alumart believes in an environmentally friendly approach in all its production processes. It has inculcated the concept of green energy by using PNG for the operation of furnaces, in keeping with pollution norms and laws.

INNOVATION:

Fuelled by technology, our team of experts pursue innovation across processes to be able to bring to the world best-in-class products in line with our long-term goal of a sustainable future.

COMMITMENT TO QUALITY:

With an uncompromising dedication toward quality, we focus on producing high-quality aluminum extrusions and alloy ingots catering to any demand or composition set by the customer.

CUSTOMER SATISFACTION: For us, customer satisfaction is of prime importance. We guarantee timely services and continuity of services whilst expediting the on-time delivery of products.
